ALEX MARTIN URUEÑA

Tool 1: Learning tools.....	3
Tool 2: Fonts.....	3
Tool 3: Icons.....	3

Tool 1: Learning tools

It is necessary to keep learning and updating at all times.

I knew previously, CodeCademy, Coursera and Sololearn, but all of them may have some interesting courses.

Tool 2: Fonts

It is necessary to have a good repertoire of fonts to make a correct design of each web site

Link: <https://markodenic.com/free-web-development-resources/#fonts>

Tool 3: Icons

I like to add icons, at least for the browser tab, so it is useful for me to have several options
